Use the Message Filtering button below to hide/show particular messages, and to see total counts of errors and warnings.

[Message Filtering](#)

Document checking completed. No errors or warnings to show.

Image report

The `img` elements of the page are shown below categorized by their type of textual alternative. Please review that the images in each group match that group's definition.

Images with textual alternative

The following images have textual alternatives. Please review that the textual alternatives make sense considering the purpose of the image in the context of the page and that phrases like "Image of ..." are avoided.

Note that iconic images that are redundant with text next to them or purely decorative should have `alt=""` instead.

Image	Textual alternative	Location

149.                         <p class="card-text">↵
150.                             In this tutorial we will discuss and look at
different cross-stitch techniques. ↵
151.                         ↵
152.                         Traditionally there are two ways to cross stitch, the English technique and
Danish technique. ↵
153.                         ↵
154.                         The English method is ideal for doing when you're using the parking method of
working across your pattern. It is also often the easier method to use when
handling confetti stitches (random scattered stitches of one colour across
your pattern).↵
155.                         ↵
156.                         The Danish method is ideal for working in big blocks of colour, as you can go
in one direction then back (ending up at the beginning of the next row or
column). It is perfect if you like using the sewing method, or sewing in hand
without a hoop or a frame.↵
157.                         </p>↵
158.                         <p class="card-text">↵
159.                             <strong>Tutor:</strong> Laura↵
